WHY RAM MADHAV

As the BJP’s general secretary in charge of the Northeast and Jammu and Kashmir, Ram Madhav has been instrumental in increasing the party’s footprint in these parts. The region is crucial for the BJP in these general elections after the party’s losses in the 2019 Assembly polls.

Madhav has been travelling across the country, talking about the government’s work. Recently, he was the NDA’s chief campaigner, Pragya Thakur, addressed a rally in Assam. Madhav was one of the first leaders in the BJP to distance from her comments.

“There is a strong feeling that Pragya Thakur has been wrongly implicated for a fictitious thing called ‘Hindu terror’...” The prime mover of this was Durga Prasad Singh. So, the local state unit decided to challenge him.”

BJP national general secretary Ram Madhav has said the polls are all about PM Modi, dismisses charge of citizenship Bill being biased, says the protests in NE have been handled, defends BJP not talking about temple in UP but the Balkat strikes, and says party is in fair good place in the Hindu heartland.

A powerful CJI leader from Jharkhand and western Uttar Pradesh, and later MP who defected from the BJP to Congress, the talking point on the Supreme Court bench in recent months was former Chief Justice of India (CJI) Justice Ranjan Gogoi. The CJI's name cropped up in the M measure case and other prominent cases. Even though he was the first SC judge of Jharkhand origin to become a CJI, his elevation was not without controversy. He was multidimensional and ideologically inclined towards the right. His elevation raised eyebrows in the SC judges' circle. Gogoi was known for his compassion and fairness, his width of views, and his political interest. He had proposed a young law student to the Supreme Court. He was a passionate advocate for women's rights, and he was known for hisueness in dealing with cases related to women. When the CJI moved to the SC, he was known for his fairness and openness.
