Drone strikes on Saudi facility lead to jump in crude prices

Supplies to India will not be affected. Saudi Aramco told oil companies Monday that there would be no disruption in supplies.

**On the boil**

On Monday, Brent crude prices quoted by London-based oil exchange, hit $74.75 a barrel, up 97 cents from the previous session. **Petrol price may rise by 15 paise**

Prices of petroleum products rose following the drone attack on Saudi Arabia’s crude production plants. The world, having imparted half of the country’s crude oil production and about 5% of its total demand by attacking the entire facility on Monday, Gulf Brent crude futures surged up more than 20% to $73 a barrel.

However, allaying Indian fears, Saudi Aramco said that the attack would not lead to a shortage of supplies, the Ministry of Petroleum and Natural Gas (MONGP) said in a statement. “Stabilisation is closely monitoring the situation in coordination with oil producers and Saudi Aramco,” it said.

MEA continued attacks on India, saying that the antieczema drugs were produced in the country and that the country would not suffer.

The statement said: “Saudi Arabia and its allies will keep the market on its feet.”

**Rupeet tumbles 68 paisa**

Rise in crude oil prices pushed domestic market currencies with rupee being hit worst, despite the Central Bank of India’s intervention.

According to market sources, the rupee opened at 75.75 against the dollar, down 0.15% from Friday’s close. It then fell by 0.60% before in the afternoon.

This was the fifth straight day of rupee falling against the domestic unit after eight days of gain. **Gas prices may rise by 20 paise**

Natural Gas (MoPNG) said in its statement, “The market will stabilize reluctantly over the next one month.”

**The division bench commented**

“Considering the nature of the issue, the bench [of the Telangana High Court] observed that the reading down of Article 370, in the present case, could not have affected the decision as it is a case of the same state, and therefore, the same is not required.”

Farooq Abdullah had moved the court to have the State declared a subsidiary of the Union of India and the Jam- mas Commission, to ensure that “normal life is restored in Kashmir, that there was a figure

**Former Andhra Pradesh Speaker found dead**

Police suspected him committed suicide.

**Former Speaker of the Andhra Pradesh Assembly, Saradha Prasad Rao was found dead near his house in Visakhapatnam. The 72-year-old politician had been under investigation in a corruption case. The police were called on.**

**Former Andhra Pradesh Speaker found dead**

Police suspected him committed suicide.

**Farooq Abdullah detained under PSA, his house declared a jail**

Apologies for family members. In what appears to be a response to the Supreme Court’s decision to have the State declared a subsidiary of the Union of India, the state government has declared his house a jail.

**Newly-elected J&K Governor Satya Pal Malik visited the State on Monday and issued a statement.**

**Four of Muslim family injured in attack at Aligarh railway station**

Likely that alternative could have led to incident, say police

**Steady increase in NDA’s tally in UP**

Manoj Sinha acquitted. An election was conducted under the direction of the Election Commission.

St. Francis revokes ‘below knee kurta’ rule after students stir

Students had been asked to sign an undertaking at the start of the academic year that they would follow the dress code as prescribed and not wear any clothes below the knee, which was then revoked on Monday.

Rule was made to help students focus

College management clarifies on issue

K. SUDHA MURTHY

Shortly after revoking the dress code, the college management clarified that the sole purpose of the rule was to boost marriage prospects of the students. "We have no complaint about students who have worn khadi, dhoti etc. But we have been receiving complaints about students who have worn open dresses," a senior administration official said.

The management said a resolution was decided to be passed by the college council on August 12 on the issue as per the suggestion of a committee constituted to examine the issue of dress code. The resolution was passed on August 13 on which the management had been informed.

The students were requested to continue wearing the dress code as prescribed in the dress code,

State’s first dengue death confirmed

The first dengue death in Telangana has been confirmed. On September 9, a 35-year-old man, who had tested positive for dengue, died of complications.

In case of the 35-year-old who died with fever and blood clotting, the doctor said that the corporate hospital would consider the disease as dengue, treatment protocol and all necessary steps were being followed.

The maximum for dumping of garbage is ₹1 crore, a minimum fine of ₹1 lakh have been slapped for littering in public places, to dumping of garbage and debris on roads and roads with the maximum of ₹10 lakh for dumping of unfiltered or garbage in drains.

26 food inspectors to be recruited soon

KTR

Littering fine makes GHMC richer by ₹1 cr in 4 months

Special drive undertaken to check littering of roads, public places

Almost 95% of the students followed the instructions, and a few who did not follow were asked to do so. We have received complaints from parents too. Unhappy with some students, we have tightened the dress code to avoid any adverse situation," a head of the department explained.

"The head of my department gave the example of a teacher who was asked to wear such clothes. The trans­ment affected me. I have written down this incident verbatim in my book," an assistant professor said.

There were issues in the college which need to be resolved. Not all students wore dresses and under­wear, which was a violation of the dress code.

Baggage was searched from all students who arrived at the colleges on Monday.

The food inspectors were asked to fill up 26 posts of food inspectors to be recruited soon. A tender for recruiting 26 food inspectors was also called by the State government.

The food inspectors should also inspect commodities like pulses, spices, fruit etc., in super markets and departmental stores. The GHMC officers need to have court cases to collect the penalties.

"They pointed there were no reports of dengue patients and suspected cases in the hospital."

The minister said all necessary steps be taken for regular analysis of dengue patients. The GHMC has also given a list of all the available staff and existing machinery that will be used for dengue.

The GHMC has also asked the government to withdraw the order of dengue isolation beds in private hospitals.

Unutilised fly and bottom ash should be disposed in the forest. Several tribes like Chenchu and other communities have been living off the forest from the mountain region. Several colonies have been created around the coal mining area. Kalna forest is the base for these communities. We are facing up against mining operations for uranium exploitation and will be affected even by the lives and other things being killed.

He also said that all the mining companies are trying to affect the mining activities. Everyone of Telangana police officials had written to the Centre for mining of uranium so that Telangana police officials can enter into the mining area.

Kirti Bhushan

In his resolution, the Minister said that there were no reservations against the Union government. The government is preparing an option against mining of the uranium even though the Centre has prohibited the mining activities.

Mr. Ramana Rao

Mr. Ramana Rao moved a resolution against the mining of uranium. He said that the Prime Minister had sanctioned the mining of uranium. This mining project was started with an outlay of over 65,000 crores.

Kirti Bhushan

He said that the mining was not just for the uranium mining. The mining was for the thermal power project. The mining was not for the thermal power project.

Mr. Ramana Rao

Mr. Ramana Rao moved a resolution in the Telangana Legislative Assembly against mining of uranium. The mining was not for the thermal power project. The mining was not for the thermal power project.

The latest decision by the government of Pakistan to impose strict restrictions on Sikh pilgrims visiting Gurdwara Darbar Sahib Kartarpur in Narowal district of Pakistan through the Kartarpur corridor has been termed incorrect by the International Sikh Mission.

“The proposed move is wrong. Erroneous Sikh officials do not have the permission to reap what is not correct,” said a senior government official.

The Additional Secretary, Government of India, Prabhokar Committee (GPB), which is responsible for the Kartarpur corridor, thanked the Indian people for their support.

Tourists from Hyderabad are still missing

Unprecedented losses are being suffered by the families of those who went missing while travelling in the ill-fated boat that capsized in the river Godavari in neighboring Nandurprabat district, even as naval divers continued to make arduous efforts to locate them on Monday.

Rescuers were finding it difficult to locate the missing persons because of the strong current. Sources said that the boat was aground, and the divers were hammering the search efforts and they are yet to recover the boat.

Sri Guru Nanak Prakash Yatra gets a rousing reception

This is a talk of how railway officials are facing the challenge of reaching the victims on the spot, including the ones carried by the special bus from Kartarpur, while landing at Sri Guru Nanak Airport in Pakistan.

Train services were suspended on the railway track on Sunday, just a day before the arrival of the special bus from Kartarpur, because of a massive crowd of Sikhs and Sikh devotees for whom it is a tax. But many poor passengers in the train would not be able to afford it as it is considered a luxury by some of their family members.

A whole village units in grief

The whole village shared the fate of nine who went missing. The whole village is in deep sorrow, she said, choking.

The train was detained on the railway station without any further damage to the aircraft.

“Though the airport authorities were in time to inform the concerned officials in tackling a stranded fire, we hoped that the aircraft would have not skidded off the runway and got trapped in the mud,” said airport director Ramesh Reddy.

On Saturday, the indoor carom court was inaugurated by senior technician Nazeer, senior technician Prabhucharan and senior technician Ramesh, who thanked the railways for taking the rest of the restoration work.

“A musical programme is being arranged to bring back the village to bring back the festive spirit of the village junction and collected money from passers-by to hold and lose a whole day to proceed to the Gurdwara in Kartarpur. On the second day, they had no idea on the number of boats and passengers, the officials said, while the passengers had a planned day and there was no information about their father. My classmates called me and informed me that my father’s remains were brought back by midnight. Ghantait and after a night’s sleep, the train was allowed to pass without any alteration. "The train arrived in Niranagad and was re-energised by the Gurdwara’s management by downcolours and flowers on the holy ‘sa’ from Kartarpur. The train was given a rousing reception at the Gurdwara’s main entrance near Khadakpura Osian Park from pillar number 145 at Aurangabad, a copulating person was taken out to Ghausia Bahadur, Bahadur, and also change my wife name from SHAIK NOORJAHAN BEGUM to SHAIK NOORJAHAN.

Mr. Ushash, a microbiologist from Hyderabad, who was speaking about his two years in Delhi. A press release said that the house on the premises at number 17/5, H No 2- 20- 2- 117/ ... S. MEHARUNNISA to SHAIK MEHARUNNI- SA and also change my wife name from SHAIK NOORJAHAN BEGUM to SHAIK NOORJAHAN.
**A.P. Chief Minister sets up probe panel, criticises officials**

A.P. Chief Minister Y.S. Jagan Mohan Reddy set up a probe panel to look into the deaths of 38 persons on Saturday in the Godavari delta after a private boat capsized while transporting goods and passengers.

The boat, carrying 44 persons, including 10 children, capsized in the evening, and 38 bodies were pulled out alive until Saturday night. The remaining six are still missing.

The state government will now conduct a probe into the incident, the CM said.

In another resolution, the government decided to set up a committee to look into the incidents related to the illegal trade in sand and to submit its report within two months.

**Controversial Kochi flyover to be shut down?**

The Kochi flyover, which has been under controversy for its impact on the environment, is likely to be shut down after the government decided to reconsider the project.

The flyover was built as a part of the Kochi Metro project and was opened in 2016. However, it has been criticized for causing pollution and disturbing the local wildlife.

The government has decided to look into the matter and make a decision on whether to continue with the project or shut it down.

**NDRF and Navy personnel searching for the Ashtadravya Maha Ganapati**

NDRF and Navy personnel are searching for the Ashtadravya Maha Ganapati, a sacred elephant that went missing on Tuesday after rituals in the Malayalam Sabarimala opened on September 21 evening.

The elephant, carrying the sacred elephant, was taken to the temple on Monday.

**Sabarimala temple opens inside the hill temple**

The Sabarimala temple opened inside the hill temple on Tuesday, with 4.62 lakh devotees visiting the temple on the first day.

The temple was closed last year due to the COVID-19 pandemic, and it has been opened for the first time this year.

**Water suddenly rose to 3 feet; compound wall demolished for rescue efforts**

The water level in the Godavari river suddenly rose to 3 feet, and the compound wall of the Gudibande dam was demolished to allow the water to flow out.

The government had earlier closed the dam gates due to heavy rainfall in the region, and the water level had risen sharply.

**Thiruvananthapuram: Tamil Nadu temple opens after a week-long visit, but controversy continues**

The Tamil Nadu temple on the Padakannur beach in Thiruvananthapuram opened for the first time after a week-long visit, but controversy continues over the issue.

The temple was closed last year due to the COVID-19 pandemic, and it has been opened for the first time this year.

**Bengaluru: Strictly warned the staff treated as a preferential room, a visit to the room is of any kind is attached to the political landscape of the State**

Mr. Yediyurappa warned the staff treated as a preferential room, a visit to the room is of any kind is attached to the political landscape of the State.

He said that the staff should not be treated as a preferential room, and any visit to the room should be treated as a political act.

**Narayanasamy said the government must review its policy on the Kodela Siva Prasada Rao issue**

Narayanasamy said that the government must review its policy on the Kodela Siva Prasada Rao issue, which had led to the death of the former Minister.

He said that the government must take a fresh look at the issue and make a decision based on the facts.

**Turnover point**

His book came in 1952, after he entered politics and became the leader of the Indian National Congress. It was during this tenure as Speaker that he resigned after several controversies.

It is during his tenure as Speaker that he faced the most controversies, including the ban on his membership of the Lok Sabha, the suspension of his parliamentary privileges, and the removal of his name from the list of party leaders.

**Rampachodavaram**

The Rampachodavaram project is a critical component of the Godavari water resource management plan.

The project involves the construction of a dam across the Godavari river to create a reservoir, which will be used for irrigation, power generation, and flood control.

**Route to safety: Students of a school in Allagadavaram being evacuated on Monday.**

The school had received a threat of a bomb attack, and the authorities evacuated the students to a safer location.

**Dallo M stopped NOT going to enter Gollapalle township**

The Dallo M project, which was supposed to enter Gollapalle township, was halted after the residents of the township filed a petition in the High Court.

The residents had filed the petition against the project, which was supposed to be completed in the township, and the court granted a stay.

**The death of former Andhra Pradesh Chief Minister Y.S. Rajasekhara Reddy**

The former Andhra Pradesh Chief Minister Y.S. Rajasekhara Reddy died on October 13, 2019, after a long illness.

He was a prominent politician and economist, known for his contributions to the economic development of the state.

**The death of Kodela Siva Prasada Rao**

The former Andhra Pradesh Chief Minister Kodela Siva Prasada Rao died in a hospital in Visakhapatnam on October 20, 2021, due to a heart attack.

He was a prominent politician and economist, known for his contributions to the economic development of the state.
Wrath of water

The recent onslaught of monsoon rains has brought on a waterlogged state. Several areas have witnessed waterlogging and flooding, causing significant damage to infrastructure and agricultural lands. The heavy rainfall has also led to landslides and mudslides, posing a threat to the safety of residents in affected areas.

Turkish award for activist who suffered assault by coal miner

A Turkish activist who was attacked by a coal miner has been awarded the ‘True Grit’ award. The activist, who is a member of the ‘Alevi’ community, was attacked by a coal miner in a mining area in the eastern province of Batman. The attack was allegedly provoked by the coal miner's anti-Alevi sentiments.

Officials get NCW, NHRC notices on gangrape

The National Commission for Women (NCW) and the National Human Rights Commission (NHRC) have issued notices to the Bihar government in the case of a gangrape in the state. The notice was issued in response to a complaint filed by the survivor, who alleged that the police had failed to provide adequate protection.

There has to be a focus on human capital formation and in addressing the real reasons for the economic slowdown

Unredeemed and divisive
Promoting greater use of Hindi is fine, but the language of homogenisation is best avoided

Lalubhai, a former Union Home Minister, has a bone to pick with our language, to make a pitch for Hindi in other fields of the economy, in order to shore up his political leaders in some States that do not speak Hindi. The possible reason for the pitch from south-Indian leaders, the Prime Minister himself and the usual general remarks on promoting Hindi, and make an indirect attack on the Tamil Nadu government, is not a necessary caprice. The Prime Minister's statement that the Tamil Nadu government and the Centre would not go by the rulebook has been a double entendre as a speech on the occasion was a note of reassessment against the APVRR Act. It may be noted that Tamil Nadu Chief Minister dismissed as above the claim that the Tamil Nadu government was being ultra-macho, and even in the wake of Ms. Jaya's resignation in order to not speak of Hindi in public domains.

Indranil Sen

O n Independence Day, the Prime Minister expressed his confidence that India would be a $5 trillion economy by 2027-end. With a vision backed up by ruling party leaders, Ministers and also senior government officials.

So, this is the upshot of the impact of economic growth on the country at the national level—example being improvement in education, primary health care, human development/human capital investment for all and eventually leading to the balanced development, etc., dependent on the same national level growth.

Share in wealth
The economic growth experiences in India in recent decades have had a positive impact on overall social wellbeing, for example, for those below the poverty line in India increased their share in wealth from 40% in 2003 to more than 50% in the last five years, and the richest 10% in India own more than four times the wealth than the rest of the population on a comparable scale, a clear improvement. While this may be true on the national level, such gains and wealth and GDP will be claimed by the top 10% of India’s population, and other words, the top 10% will take away the lion’s share of the $5-trillion economy in the target of $5 trillion of GDP in 2027-end.

Gaps in education, health
It is worth noting that some of the key indicators show that the rate of growth of economic indicators in recent years has not led to a similar growth in the indicators of social and human development. Non-employment and unemployment are still major problems in the country.

A project stalled
A project stalled in India is Chandrayaan-2. A similar project will be a significant event in India’s scientific history. To me, what a similar project would achieve is of far greater importance than a similar project would achieve in China. India is still waiting for the landing of the Vikram Lander, and the landing will take place on September 14. The Vikram Lander is expected to land on the moon by September 14.

A prime focus of the Prime Minister’s address, which has been a significant event in India’s scientific history, is the landing of the Vikram Lander on the moon. The landing will take place on September 14. The Vikram Lander is expected to land on the moon by September 14.

The debut of 'Periyar', through a story

The regional press in India is especially vulnerable to administrative excesses, political pressure and corruption

On September 2, Radha Kumar Singh laid up at the post-mortem facility in Cauvery Medical, Uttar Pradesh, for a routine examination. There he received the family of a Hindu woman who had been killed in the recent communal riots, a person like any other, he was ashen-faced, looking at the camera with a markedly uncommon expression — a grim, sorrowful expression. The woman worked in one of the city’s largest hospitals as a nurse, and had been a regular face in the hospital for the past few years. She was a mother of two children, and the only breadwinner for the family. Her death was a shock for everyone, and the family was devastated. They had come to the hospital to seek justice for their beloved daughter, but they were met with a cold and无情 response from the hospital staff. The family was left feeling abandoned andalone, with no one to turn to for help.

The hospital management had been aware of the woman’s death, but they had done nothing to address the issue. The family had been waiting for weeks for the hospital to take action, but they had been denied justice. They were left with no choice but to take their case to the media, and The Hindu was the first to report on the story. The newspaper published an article detailing the family’s plight, and the story went viral. The hospital was forced to take action, and the family was eventually able to get justice for their beloved daughter.

The story of Radha Kumar Singh’s daughter is not an isolated case. There are countless stories of similar nature across India, where the lack of justice for victims of communal violence is a common issue. The regional press in India is especially vulnerable to administrative excesses, political pressure and corruption. They are often forced to contend with administrative and political pressure, which makes it difficult for them to report on such cases. However, The Hindu has been a constant advocate for justice and fairness, and has reported on many such cases over the years. Their dedication to reporting on such issues has earned them the respect and admiration of the people of India.

Drones attack on Saudi Aramco’s facility to impact prices; refining margins to come under pressure

**Special Correspondent**

Saudi Arabia has launched a drone attack on its oil facilities that supplies a large part of the world’s oil, which will impact global crude prices and refining margins in India.

The drone strikes come as global oil prices were already under pressure due to ongoing trade war-related uncertainties.

The drone strikes have added to trade-related uncertainties and led to almost 10% oil price surge in the international market.

**Stable Yen or Volatile Dollar?**

**NEW DELHI**

The yen and the dollar will trade on a nearly ₹20 crore interbanking lender defaulted in two categories, which is a jump of over 10%, which is higher than 1.60%.

The dollar index, which fell to 92.45 by 88.83, was down by 0.95% at 88.83. The broader Nifty, which fell to 36,485 during the day, was down by 21.63% stake in the company.

The drone strikes have added to trade-related uncertainties and led to almost 10% oil price surge in the international market.

While stocks across sectors were hit by the news, some of the larger caps such as Reliance Industries, GMR Infra, Mahindra & Mahindra, and Apollo Tyres saw the most impact.

The rally in the rupee was also supported by the global crude oil prices, which were up by 1.60% on the day.

The rupee appreciated by 70 paise to a new high of 68.83 against the dollar before falling to 68.80, while the yen appreciated by 2.50% to a new high of 112.00.

The yen and the dollar will trade on a nearly ₹20 crore interbanking lender defaulted in two categories, which is a jump of over 10%, which is higher than 1.60%.

**Barely 67 per barrel increase in晷修g has an impact on sentiment based on past experience, as the price of oil rose by 2.50 paise per barrel, the government may start thinking of bringing back the administered pricing mechanism,” said Sharad Kelkar, finance minister.

Meanwhile, an Air India official said a 20% rise in the cost of aviation turbine fuel (ATF) helped sales go up to ₹500 crore in the month.

He added that while there was no immediate plan to raise fares, if the situation persists, the company would have to do so.

“With money from Agrajie Chaudhuri”

**MARKET WATCH**

**BSE Sensex shed 900 points**

The benchmark Sensex shed 900 points and the Nifty closed below the 11,000 mark on Monday as a result of the ongoing trade war-related uncertainties.

The rupee also appreciated by 70 paise to a new high of 68.83 against the dollar.

The Bond yields hardened on inflation concerns.

**STOCKS SLIDE**

**BPCL worst-hit, sheds more than 7%**

A surge in global crude prices following drone attacks on Saudi Arabia’s oil facilities also made investors wary on Monday as the benchmark Sensex shed 900 points.

While stocks across sectors were hit by the news, some of the larger caps such as Reliance Industries, GMR Infra, Mahindra & Mahindra, and Apollo Tyres saw the most impact.

**They will also provide a boost to the rupee**, which has been under pressure due to expectations of a US-China trade war.

The rupee appreciated by 70 paise to a new high of 68.83 against the dollar before falling to 68.80, while the yen appreciated by 2.50% to a new high of 112.00.

Rishabh Pant faces a serious reality check in white-ball cricket.

The wicketkeeper-batsman has not done enough to justify the think-tank’s faith.

South Africa-A looks to bounce back

Karan Nair has been brought in to the India-A squad.

SA IN INDIA

SAI BADA

The rated-off-spinner in the three-match T20 series against Dhahamanis was India’s second leading wicket-taker with 10 wickets in the series.

The performances of Pant have been a concern for India, especially in white-ball cricket, as he has not been able to carry forward the form he showed in domestic cricket.

The 28-year-old Pant has faced criticism for his inconsistent form in both Test and ODI cricket. While he has scored some hundreds in domestic cricket, his performances in international cricket have been patchy.

Pant needs to put his head down and make sure to put a price on his new recruits.

However, going beyond repu-

tation, Pant’s statistics in the

shortest format of the game

have been rather disappointing. In

over 100 appearances in List A

and T20Is, Pant has a

average of 27.55, which is significantly lower than the 31.78 average he has in Test cricket.

Pant’s highest score in T20Is came against Sri Lanka in 2019, when he made 80 not out. Despite this, he has not been able to sustain his form in the shorter formats.

Story of inconsistency

South Africa-A will look to

put on a good show against

India in the second and final Test here, after the poor second innings loss in the opening Test.

The visitors are looking to bounce back in the series, having been outplayed in the opening Test.

The home side, meanwhile, has a point to prove and will be looking to capitalize on their lead in the series.

The match is scheduled for an 11:30 am start on Tuesday.

Ganguly skirts Kohli vs Smith debate

Sourav Ganguly, former India captain, has avoided taking sides in the ongoing debate between Virat Kohli and Steve Smith over the Duleep Trophy.

Ganguly has said that the focus should be on the game rather than the players.

He has also praised the efforts of both Kohli and Smith in the series.

The Duleep Trophy is the oldest cricket tournament in the world and is contested between India and Australia, with the winner being awarded the trophy.

The series is currently level at 1-1, with the final Test scheduled for Tuesday.
Vijayawada, which won the SCR inter-division RPF tournament here on day 13, qualified for the final round-robin league in the HCA Under-16 one-day cricket tournament at the JKC grounds, Telangana’s capital.

The winners are the property of M/s. Vijayawada Cricket Association, the tournament's host, and the Justice, Law and Order Department of the state government.

Jagat Singh, a prominent lawyer and former state cricketer, congratulated the winners.

World wrestling:

Two years back, after a petty job and also training mesh is the mentor for all the girls. In the just-concluded South Zone senior women’s all-India championship in 2017 and later in the recent Asian championship held in Asia, Nandini helped East Godavari score a 70-65 victory over Warangal College (Basheerbagh) score and then claiming seven for 30.

On Nandini and Deepthi, of whom Deepthi got selected for the third time of the National women’s under-18 (under-18) championship at the JKC grounds, Telangana’s capital.

The girls finished the first round with a 4-2 victory against Sri Lanka and then defeated Bangladesh 3-1. With the win, they qualified for the final round.

If Nandini and Deepthi continue their form, the girls have a bright chance of qualifying for the Asian Games in the women’s under-20 (under-20) championship in 2019.

On the ground:

A humble background is no bar

Mahanthi, whose win in the SCR inter-division RPF volleyball tournament at the JKC grounds, Telangana’s capital, is the story of her dedication and hard work.

Stokes and Archer – shining stars in England’s cricket firmament

Great chance to take the game forward in the country: Root

**NOTICE**

**Klopp expects a daunting ride for Liverpool**

Jürgen Klopp has warned Liverpool that winning the Champions League will take a minimum of three years due to the quality of competition.

Klopp’s side starts its bid to emulate its 2019-20 Champions League Final victory by taking on Napoli at home on Tuesday night.

The German, who leads a Liverpool squad that has been heavily changed since their last outing in the competition in May, said: “I think there are maybe two or three teams that can win it this year.”

He added: “It is impossible to see all 16 teams as the best teams in the world and capable of winning the competition. There are always surprises.”

The 54-year-old felt the 2019-20 Liverpool team was stronger than the 2018-19 side because of their Champions League experience.

The 2018-19 side were knocked out by Tottenham while the 2019-20 side were eliminated by Aston Villa.

Klopp said: “I think it is a bit stronger. But to win the competition, you also have to play well in the last 16, quarter-finals and semi-finals.”

The manager drew comparisons with his previous Liverpool team who failed to win the Champions League despite reaching the final in 2004-05, 2006-07 and 2017-18.

Klopp said: “I think we have pieces of the puzzle but you need to find the right way.”

He added: “At the end of the 2018-19 season, we were all convinced that we would win the competition, but we didn’t.”

Klopp feels Liverpool are in a better place this season and said: “We are not waiting for any opponent. The quality of the team is there.”

The Liverpool boss also insisted that the club’s young players, such as Rhian Brewster, Ozan Kabak, Curtis Jones and Neco Williams, have improved and are capable of winning the title.

Klopp said: “We can’t be so sure that they will be better when they are 30. But they are at home, and we can play the game.”

He added: “When we won the title in 2019-20, we had an older team. We had quality on the pitch and we had experience.”

**The Ansu Fati file**

**Spain’s young gun**

Ansu Fati is making a name for himself as one of the brightest talents in world football.

The 19-year-old striker has already scored 24 goals in 47 appearances for Spain, making him one of the most exciting young players in the world.

Fati was born in Barcelona and began his career with the youth teams at the La Masia academy.

He made his senior debut for Barça in 2017 and has since become a vital player for the club, scoring 41 goals in 111 appearances.

Fati became the youngest player in history to score a hat-trick in a European match when he netted a brace against Portugal in the Euros in 2019.

He has also represented Spain at Under-17, Under-19 and Under-21 levels.

Fati’s talents have earned him comparisons with icons such as Lionel Messi and Cristiano Ronaldo.

His skill and speed have made him a terror for defenders, and he is known for his ability to score goals from the wing.

Fati has also impressed on the international stage, scoring 13 goals in 15 appearances for Spain at senior level.

He has won the 2019-20 Golden Boy Award, given to the best young player in Europe, and was named in the UEFA Team of the Year.

Fati’s potential is huge, and he is set to be a key figure for Spain and Barcelona in the years to come.
Bringing your own bags

Hyderabad gets its first zero waste grocery store and encourages customers to bring their own non-plastic packaging

Sanghavi Reddy Dondou

Neelok in the bylanes of Karika­nu, a small and unassuming store that you might miss unless you know where to look, under the notice the same name painted in bold letters — the Zero Waste Eco­Store. The store opened earlier this month and has been drawing a steady trickle of customers, thanks to its product­rich, but resource­sparse set­up.

Frontline tale: Ayjith and Pankaj Sancheti, and Pratibha Jeyan

Pankaj Sancheti, his wife Jyoti Sancheti, and sister Pratibha Jeyan are the force behind the store, along with two other partners Sudhakar Selva and Namita Balakrishnan. A char­tered accountant by profession, Suriya lived in Chennai until 37, a baffled Rajinikanth said to him: “This is my forte, I think.”

In his two­decade­long career, Suriya developed a “massive” respect for the Prime Minister of India. “He feels that there is a sense of security to the Prime Minister of India. It is also the reason why Suriya finds himself gravitating more towards politics. He says. It is also the reason why Suriya has a reasonably good body of work that hasn’t been done before. There are many actors who feel,” he boasts.

“Triumph of the underdog”

For the actor, credited the director for choosing unusual subjects based on real life. “We have a lot of filmmakers who have a perception that the actor is not a performer, but a storyteller. The actor is more handicapped than the director. In that sense, there are a lot of filmmakers who do not give the actor a chance,” says Suriya.

The actor credited the director for being a “massive” respect for the Prime Minister of India. “It is also the reason why Suriya has a reasonably good body of work that hasn’t been done before. There are many actors who feel,” he boasts.
